

WWDA LEAD's Five Leadership Principles

"Seeing things as they will be... a world which values the leadership of women and girls with disabilities in all our diversity."

1. Lead by lifting others up

Leadership that creates space for others to join, feel and be heard too.

2. Value diversity & lived experience

Promoting the status of women & girls with disabilities in all our diversity.

3. Challenging & transforming traditional views of leadership

Women with disabilities are not problems to be 'fixed', we are problem solvers.

4. Care for self to care for community

The relationships we have with ourselves, and others are the most important resources that we have.

5. Nothing about us without us

Inclusion not segregation.

Representation for and by women, girls and nonbinary people with disabilities
