

Tool 3: Poetry, Art or Collage of the changes they've noticed with an audio or written description of the changes

The invitation is to write a poem, create a piece of art, collage or other form of creative expression which captures the change in how you **think about leadership**, how you **think about yourself as a leader**, and/or how you **do leadership differently** since participating in WWDA LEAD. If required (ie, for a piece of art, collage) please include a written description of the work to support engagement by Blind people and Vision-Impaired people.

Please include an Artist Statement to help us understand your work.

We'd also appreciate it if you could reflect on the contribution WWDA LEAD made to these changes. You might like to incorporate that into the creative work or provide a separate reflective note.
