

## Tool 2: Photo/Object reflection

The invitation is to choose a photo/object/series of objects which capture the change in how you **think about leadership**, how you **think about yourself as a leader**, and how you **do leadership differently** since participating in WWDA LEAD. You may also like to reflect on whether you have a different understanding of how the **leadership of DWGwD contributes to change**.

Please take a photo of the object/s and prepare an Interpretative Statement that will help us understand the objects you've chosen and the changes they represent.

We'd also appreciate it if you could reflect on the contribution WWDA LEAD made to these changes. You might like to incorporate that into the creative work or provide a separate reflective note.
